## CLEAR AND UNDERSTANDABLE CONTENT

"Clear and understandable content"

"The topics are both specific and up to date"

"The topics are both specific and up to date"

"The topics are useful"

"Some of the topics are not part of our media classes that's why it is very important to include them"

## SUGGESTIONS

"It may be nice to include the good and the bad sides of the media, because a lot of people don't think that the media is a good thing nowadays."

"My suggestion is that media students need to study philosophy. In my opinion the 'Fourth Estate' has to be grammatically well educated, to have a good writing culture."

"The only thing that you have to be careful with is the use of a lot of dates and years."

"I suggest that the course not only focus on theory but also teaches us how to do things in real life."
